## Praise for *The World Is Open*

"...This book captures the true potential of technology and open and shared content to eliminate the educational divide. For this reason, *The World Is Open* is required reading for all participants in the world's ongoing, technology-led education revolution."

—**Scott McNealy**, chairman and co-founder, Sun Microsystems and founder, Curriki.org

"As everyone now knows, thanks to Thomas Friedman, the world is flat. And now, thanks to Curtis Bonk, we know that the world of learning is open."

—**Milton Chen**, executive director, The George Lucas Educational Foundation, publishers of Edutopia magazine and edutopia.org

## About *Empowering Online Learning*

*Empowering Online Learning* is an essential resource for anyone designing or facilitating online learning. It introduces an easy, practical model called R2D2 (*read, reflect, display, and do*) that will show online educators how to deliver content in ways that benefit all types of learners (visual, auditory, observational, and kinesthetic) from a wide variety of backgrounds and skill levels. With a solid theoretical foundation and concrete guidance and examples, this book can be used as a handy reference, a professional guidebook, or a course text. This book is intended to help online instructors and instructional designers, as well as those contemplating such positions, to design, develop, and deliver learner-centered online instruction.
